In Recognition of National Volunteer Week

The Upper Valley Medical Reserve Corps staff and Advisory Board members want to tell you how wonderful our volunteers really are…

April 7 to 13, 2019

Thank you for everything you have done this past year!

From training the public

And teaching future generations

To educating ourselves

And putting it into practice

Thank you for helping our community partners

In many different ways

Thank you for being a partner in safety

Thank you

For long-standing members

And new

And for making a world of difference!
