#### **Agenda and Minutes:**

**Executive Council members Rudy, Ashleen and Susan led the discussion.**

1. Rudy Fedrizzi: How do we describe GUVIST? What does our process look like? How is this beneficial to you and the systems you work in? Answering these questions as well as an introduction of the Integration Guide (digestible version coming soon!) See slides for more.
2. Ashleen Buchanan: In 2025, we will
  - Invite colleagues to learn about GUVIST and to start new projects. The group noted Vital Communities and law enforcement are missing from the table.
  - Expect monthly meetings to be a combination of networks learning from each other's projects and applying our curriculum to real examples of work happening in the UV
  - Use the Integration Guide, refine tools such as collaboration evaluation, improve on community engagement and utilize publicly available data
3. Susan Seidler: There will be federal changes in 2025. We're not sure how that will impact our jobs and funding, but know that collective action will only strengthen us, doing better with what we have. We looked at what opportunities you want to see movement in next year. The group brainstormed what improved access to health care, oral health in particular, could look like.
